

LED advertising display for lighting poles - Outdoor use - P4mm - 148 x 86,5cm

Ref. DP4T1

LED advertising display for outdoor use specially designed to be installed on posts or lampposts. It features an original design and incorporates the most innovative technology on the market, allowing for high-definition image reproduction, ensuring a great visibility and visual impact, even at long distances. High brightness and resolution, image sharpness, high resistance, durability, and minimal consumption are some of its main features. Thanks to its IP65 protection rating, this display is completely resistant to rain, dust, and adverse weather conditions. When installed at the top of the pole, it can be oriented to gain maximum visibility. Installation locations: public roads, exhibition centers, shopping centers, bus or train stations, airports, gyms, or markets. Product subject to special shipping conditions in the mainland and Balearic Islands: +€100 shipping costs
